

mynewhair
by salons that care

why
are we
raising
funds?

We are an independent national registered charity. We rely solely upon donations. Our ability to continue to help, train, and provide information relies upon fundraising and sponsorship to support this programme

The purpose of the *my new hair* charity is to promote and enhance the provision of a quality service for people experiencing medical hair loss. This includes cancer and alopecia patients. We will achieve this by:

- The training and development of accredited hair professionals via our "Salons that Care" network
- Producing and distributing clear & useful information for the public
- Educational events and special projects
- Raising awareness of help available to patients
- To lobby national organisations and agencies on behalf of patients with medical hair loss
- Supporting individuals in extenuating circumstances
